We know from our experience as health care professionals that the quality of a product you take makes a huge difference in the health outcome experienced. We dedicate ourselves to researching and making the best possible products to deliver optimal health solutions.*

MediHerb products are developed by experts and leaders in the field of natural health, using scientific evidence and hundreds of years of traditional knowledge. Our products are made with only the highest-quality ingredients and manufactured in an industry-leading facility.

MediHerb® Turmeric Forte

Healthy Inflammation Response Support*

The image shows a woman in athletic wear running on a path. Three circular callouts are connected to her body by dotted lines: 'Liver Health*' points to her upper right abdomen, 'Antioxidant Activity*' points to her chest area, and 'Joint Health*' points to her knee. In the bottom right corner, there is a bottle of MediHerb Turmeric Forte. The bottle label includes the following text: 'MEDIHERB®', 'Turmeric Forte', 'Standardized for curcumin Herbal Supplement', 'M1448', 'Suggested Use: 1 Tablet 1-2 times daily, or as directed.', and '60 Tablets'. The Standard Process logo is also visible on the bottle.

MEDIHERB®

MediHerb® Turmeric Forte

Standardized for Bioavailable Curcumin**

Healthy Inflammation Response Support*

For more than 5,000 years, Chinese and Ayurvedic traditions have valued Turmeric for its beneficial properties and warm, peppery flavor. Called “holy powder” in India, the golden spice is widely used in Eastern and Asian cuisines, complementing the wonderfully fragrant, flavorful ginger and chili.

Curcumin, a compound found in Turmeric, is well known for its anti-inflammatory support properties. It’s also the pigment that gives Turmeric its rich, vibrant color.*

It may function as a powerful aid to maintain good health and has been used traditionally to support healthy joints and digestion, improve liver function and provide antioxidant activity.*

What is Turmeric Forte?

Turmeric Forte is a combination of soluble fiber from Fenugreek seed and Turmeric rhizome extract, standardized to deliver bioavailable curcumin that may be easier to absorb¹: meaning fewer tablets need to be taken to achieve the desired effect.*

Who Needs Turmeric Forte?

Adults of any age who require help maintaining and supporting healthy joints, improving liver health function or supporting digestive health may benefit from this gentle yet powerful formulation.*

Compelling Benefits

Turmeric Forte:

- ✓ Supports a healthy **inflammation** response
- ✓ Used traditionally to maintain and support healthy **joints**
- ✓ Provides **antioxidant** activity
- ✓ Supports a healthy response to environmental **stressors**
- ✓ Supports healthy **liver** function
- ✓ Used traditionally to support healthy **digestion***

Fenugreek (*Trigonella foenum-graecum*)

Inflammatone™

Supports a Healthy Inflammatory Response*

CYTOKINE SUPPORT*

Inflammatone™ is a comprehensive blend of specialized protein-degrading or proteolytic enzymes, polyphenols (plant chemicals), and botanical extracts formulated to promote a healthy inflammatory response and support the body's ability to break down specific protein structures that are produced during the natural inflammatory process.*

Occasional inflammation is the body's natural response to trauma. This trauma may be physical, dietary, or environmental, such as a broken bone, exercise-induced muscle strain, consumption of allergenic foods, and exposure to pollutants, heavy metals, or other chemical compounds such as pesticides that are foreign to the human body.

When taken on an empty stomach, proteolytic enzymes can help break down damaged tissue.* Curcumin, ginger, and Boswellia have been used for centuries in Chinese and Ayurvedic medicine to help modulate the production of inflammatory compounds in the body.* Quercetin, rutin, resveratrol, and rosemary contain phytonutrients that may help protect cells from excess oxidative stress.* By supporting a healthy inflammatory response and antioxidant status in the body, the ingredients in Inflammatone™ may be helpful for supporting the treatment of inflammatory conditions, injuries, and postoperative tissue repair.*

Benefits*

- Promotes a normal inflammatory response
- Helps maintain healthy joints
- Supports the body's antioxidant status
- May support the body's repair process after injury
- May support normal tissue repair postoperatively

Recommended Use

Take 2 capsules per day between meals or as directed by your health-care practitioner. For best results, this product should be taken on an empty stomach, approximately 1 hour before meals or several hours after.

Warning: Not recommended for use by pregnant or lactating women.
